KEY FACTS

Russia-based company focusing on developing software in the field of digital marketing automation. Altcraft Platform is a private (on-premises), scalable and flexible marketing automation software with deep personalization and advanced analytics.

Institutional-legal form: limited liability company
Year of foundation: 2015
Number of Employees: 35 employees (as of August 31, 2021)

EXPORT GEOGRAPHY
EU, MENA

GENERAL INFORMATION

Since its appearance in 2015, the Platform became commercially successful among financial sector companies. Now our clients are not only large federal financial institutions, but businesses, that above all appreciate security, the possibility of rapid growth and individual approach. Our Mission is to create the world's best automation products so that everyone could realize their creative vision. Our Goal is to develop user-friendly, innovative and security complaint software products that automate routine work in any field. **TECHNOLOGICAL EXPERTISE OF THE COMPANY.** Development of marketing software products, marketing automation, private and failover deployment, compliance with security requirements, built-in message transfer agent for customer data protection, scalable architecture of multiple senders and IP addresses, unlimited sendings, individual approach, professional technical support. **REALIZED PROJECTS.** Altcraft LLC successfully realized dozens of projects on implementation and deployment for financial and commercial companies of Russia, including large federal banks and insurers. **PRODUCTION FACILITIES.** The headquarters is located in Ryazan, Russia. **PARTNERS AND CUSTOMERS.** Tinkoff Bank, Premier.one, CPAEXCHANGE, YooMoney, Aviasales, SOGLASIE Insurance, Parkly, ALFA STRAKHOVANIE and others.

FEATURED PRODUCTS

Full data security

On-premises deployment provides control over customer data and compliance with security requirements.

Advanced real-time analytics

Advanced real-time analytics with detailed reports will help you get accurate insights and optimize your marketing strategy.

Customer Journey Automation

Altcraft Platform collects and unites all data from different sources and channels into a Single Customer View.

Omnichannel marketing

Template Editor allows you to create personalized messages dynamically using both accumulated and external data (from SQL, API, web).

Personalized messaging

You will be able to deliver the right message to the right person at the right time with the help of Customer Journey Maps based on deep segmentation.

Single Customer View

Altcraft Platform allows managing omnichannel marketing - web/mobile push, email and sms, social networks, survey forms, etc - all in a single interface.

KEY FACTS

IBIK LLC was founded in 2003. IBIK has a team of highly qualified programmers who create software that is known all over the world. Company has distributed team in Russia, Poland, Nepal, India and Brazil.

The company works with partners around the world: LIGS Informatics (India), Portware (South Korea), Liberty and Technology (France), Stable Computer Inc. (Taiwan) and others. Company has over 60 dealers all over the world.

EXPORT GEOGRAPHY

Almost all countries

GENERAL INFORMATION

IBIK is the leading Russian developer of Multiseat IT solution called ASTER. ASTER software allows creating multiple workplaces based on a single Windows PC. ASTER is useful for government clients, corporate clients and individuals:

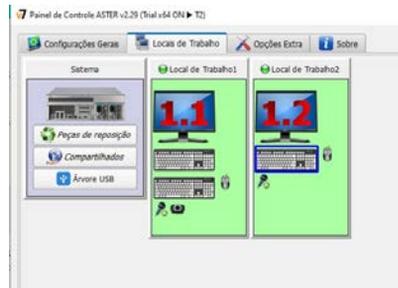

- One of the TOP-5 Multiseat companies globally
 - More than 20 years of experience of Multiseat software development
 - Hundreds of corporate clients all over the world, some of them: Russia Post, Bancofie Bank (Bolivia), RosAtom, Goertek (China), Aixtron (Germany), LNT (France)
- Unique R&D team and state-of-the-art technology:
- Multiseat IT infrastructure saves budgets on HW purchasing and on electricity
 - ASTER won several international best SW awards for quality and usability (PC Magazine, Chip)
 - ASTER saves energy, reduces e-waste and mining

FITURED PRODUCTS

ASTER PRO-2

•This is a lifetime license for installation on Microsoft Windows 7/8/10/11

- The license allows organizing 2 workplaces based on 1 PC
- Number of workplaces could not be expanded
- It is possible to port the license to another PC

- Less expenses on HW and SW
- Less electrical power consumption
- More space
- More entertainment

ASTER PRO-6

•This is a lifetime license for installation on Microsoft Windows 7/8/10/11 and Windows Server 2016/2019/2022

- The license allows organizing up to 6 workplaces based on 1 PC
- Number of workplaces could be expanded up to 12 workplaces
- It is possible to port the license to another PC

- Less TCO (Total Cost of Ownership)
- Less electrical power consumption
- Less recycling
- Less noise
